PROFESSIONAL SUMMARY

Motivated BSc IT graduate (NWU, 2025) specialising in Computer Science and Information Systems, with hands-on experience in software development, data analytics, database engineering, and information security. Proficient in Java, C#, Python, JavaScript, SQL, and MongoDB, with practical project experience building full-stack applications and data pipelines. Holds cybersecurity certifications and demonstrated ability to deliver real-world solutions. Eager to contribute as a Software Developer, Data Analyst, Data Engineer, Data Scientist, IT Support Specialist, or Cybersecurity Analyst.

TECHNICAL SKILLS

Languages	Java, C#, Python, C++, JavaScript
Web Technologies	HTML5, CSS3, JavaScript, ASP.NET, REST APIs
Databases	SQL (Oracle, MySQL), MongoDB, Advanced Databases
Data & Analytics	Power BI, Excel (data analysis), Kafka, Pandas
AI & Algorithms	Artificial Intelligence, Data Structures & Algorithms
Networking & Security	Cisco Packet Tracer, Network Security, Information Security
Dev Tools	GitHub, Visual Studio, Linux, VS Code
Concepts	OOP, SDLC, System Analysis & Design, Decision Support Systems

EDUCATION

Bachelor of Science in Information Technology | North-West University, Vanderbijlpark *2018 – 2025*

NQF Level 7 | GPA: 62.71% | SAQA ID: 73063 | Qualification completed: December 2025

- Core modules: Object-Oriented Programming, Advanced Databases, Artificial Intelligence, Data Structures & Algorithms, IT Developments (Distinction: 80%), Operating Systems, Computer Networks, Decision Support Systems, Information Security, System Analysis & Design
- Notable distinctions: Intro to OOP (82%), Data Analytics 2 (82%), IT Developments (80%), Apps & Advanced UI Programming (75%), Understanding the Natural World (79%)

National Senior Certificate | Kgokare Secondary School *Completed 2017*

- Key subjects: Mathematics and Physical Sciences

WORK EXPERIENCE

Data Analytics Student Assistant | North-West University *Jul 2025 – Oct 2025*

- Delivered weekly tutorials and practical sessions on data analysis to undergraduate students, improving class pass rates
- Facilitated hands-on Excel workshops covering data cleaning, pivot tables, statistical functions, and visualisation techniques
- Assisted lecturers with assignment and examination preparation, marking, and feedback
- Broke down complex statistical and analytical concepts into accessible explanations, increasing student engagement

PROJECTS

Digi Dine – Full-Stack Restaurant Management System | *Tech: ASP.NET / NodeJs/React/ SQL / Power BI*

- Designed and built a full-stack restaurant management system featuring real-time order processing and kitchen workflow management
- Developed an admin dashboard with inventory tracking, supplier management, and sales reporting modules
- Integrated Power BI analytics dashboards providing actionable business insights from transactional data
- Applied SDLC principles from requirements gathering through to deployment and testing

ClearVueBI – Data Engineering & Analytics Pipeline | *Tech: MongoDB / Apache Kafka / Power BI / Python*

- Processed and transformed 100,000+ sales records using MongoDB and Kafka for real-time data streaming
- Designed ETL pipelines to clean, aggregate, and load large datasets into analytical models
- Built interactive Power BI dashboards enabling business stakeholders to explore sales trends and KPIs
- Demonstrated end-to-end data engineering skills: ingestion, transformation, storage, and visualisation

Campus Connect – Student Communication Platform | *Tech: C#.NET /JavaScript / HTML / CSS / SQL*

- Developed a web-based student communication and resource platform to improve access to campus services
- Implemented user authentication, role-based access control, and a centralised notice board
- Conducted user testing and incorporated feedback to improve UX and accessibility

CERTIFICATIONS

- Introduction to Cybersecurity – Cisco / Online
- Introduction to Cloud Security – Online
- Introduction to Cybercrime – Online
- Basic Training on Network Security Management – Chongqing Polytechnic University of Electronic Technology (in association with China Communications Industry Association)

KEY COMPETENCIES & SOFT SKILLS

- Analytical problem-solving: strong academic grounding in algorithms, AI, and decision support systems
- Communication: experience explaining complex technical concepts to non-technical audiences (tutoring role)
- Collaboration & teamwork: worked in group project environments throughout degree
- Self-driven learner: pursued multiple cybersecurity certifications alongside academic studies
- Adaptable across domains: software development, data analytics, data engineering, cybersecurity, and IT support

TARGET ROLES

Junior Software Developer | Junior Data Analyst | Junior Data Engineer | Data Science Graduate | IT Support Analyst | Cybersecurity Analyst (Junior) | Business Intelligence Developer | Graduate IT Technician
