PROFILE

I am a final-year BSc in Information Technology student at North-West University, majoring in Computer Science and Information Systems. I have a solid foundation in software development with experience in Java, Python, C++, C# (ASP.NET) and Javascript. I also have knowledge in databases (SQL), web technologies (HTML & CSS), and a growing interest in data analytics and AI. Additionally, I have practical exposure to networking concepts, including Cisco routing and switching, and tools like Oracle, Linux, Github and Visual Studio.

ADDRESS

10291 Sekonyela street
Zone 7A

CERTIFICATIONS

- Introduction to cybersecurity
- Introduction to cloud security
- Introduction to cybercrime

PHUTI DANIELJUNIOR MATOOANE

EDUCATION

North West University
2022 – 2025
BSc Information Technology majoring in Computer Science and Information systems
Kgokare Secondary School
2015 – 2017
National Senior Certificate

SKILLS

- SQL Databases
- C++
- Java
- Python
- C#(ASP.NET)
- HTML
- CSS
- Javascript
- Problem solving
- Object-oriented programming languages knowledge
- Artificial Intelligence and Machine learning
- Data analytics knowledge
- Visualizing and reporting data
- Ability to work both in a team and independently

Frameworks & Tools:

- ASP.NET
- Visual Studio
- GitHub
- Oracle
- Linux
- Cisco routing and switching(Network and VLAN configurations)

PROJECTS

- **SQL Databases**

Designed and implemented a relational database system using SQL for managing client data. Focused on understanding database concepts and meeting user requirements.

- **Software development**

Developed a software project called *Campus Connect*, designed to improve student communication and access to campus resources. Applied the Software Development Life Cycle (SDLC) to understand and implement each phase of development.

- **Computer networks Project**

Group project on computer networks to build practical understanding of networking concepts using Cisco Packet Tracer.
